Career Objectives

A passionate cybersecurity and software development enthusiast with a strong grasp of secure coding, threat analysis and system protection. Quick learner with hands-on skills in vulnerability assessment and secure application development.

Experience

InternPe - Cyber Security Intern — Feb 2025 - March 2025

- Examined different threats and tools used in Kali Linux.
- Dived into an Incident Response simulation to mitigate its consequences.
- Gained insights about threat detection and mitigation softwares.

CodeAlpha- Cyber Security Intern — July 2024 - August 2024

- Engineered a Network Sniffer to capture packets using Nmap and Scapy.
- Implemented best cybersecurity and secure coding practices to strengthen system security.
- Boosted project protection by 10% on topic Phishing and its Prevention.

Projects

DeepWatch – A Child Sexual Abuse Material Detection System

- Crafted a React-based web application with seamless user authentication using Auth0.
- Designed an interactive dashboard with real-time data analysis for better decision-making.
- Integrated NudeNet API to detect abusive material, contributing to a safer user experience.
- Presented my project to Nagpur's top software company CEOs, the Cyber Cell Commissioner and a team of 50+ cyber police officers.

Tech Stack – React, Tailwind CSS, Python (Flask), Convolutional Neural Network (CNN).

Tic Tac Toe

- Built a Tic Tac Toe game in java with AI based opponent that plays the best moves available.
- Optimized performance for a lag-free and responsive experience.
- Added AI opponent, points table and intuitive controls.

Tech Stack - Java, Swing / FX, Object Oriented Programming.

Achievements

CyberHack 2025 | Advantage Vidarbha

- Achieved finalist position among 1,600 participants and won "Best Innovation Idea" in the competition.
- Showcased teamwork, collaboration, presentation skills and built valuable professional connections.

Central India Hackathon 2.0 2025 | Unstop

- Achieved finalist position among 800 teams and got in Top 20 in the competition.
- Created an extension that sends real time alerts to an interactive dashboard.

Skills

Programming Languages - HTML, CSS, Java Script, Java, C, C++, Python, SQL.

Tools - Git, GitHub, Netlify, MySQL, Render, ReactJS, NodeJS.

Interests - Chess, Cooking, Reading, Problem Solving.

Collaborates with teams, communicated clearly and applied problem-solving skills to tackle challenges effectively.

Education

G H Raisoni College of Engineering | B. tech in CSE (Cyber Security) — 2022 – 2026 | Nagpur, MH

CGPA – 9.15

Certifications

Earned Cyber Security Job Simulation, Data Analyst Job Simulation and Junior Cyber Security Analyst Career Path, showcasing knowledge in data analysis and cybersecurity fundamentals.
